Contents

Ahlersová E., Ahlers I., Milárová R., Ďatelinka I., Toropila M.: Circadian oscillations of thyroid hormones, insulin and glucagon in the blood of laboratory rats in the course of the year	309
Albrecht V., Louvar B.: A non-stationary model of single evoked EEG activity and its estimation	195
Babický A., Vobecký M., Valášek J.: Effects of the withdrawal of solid food on maternal milk intake and the development of young rats	217
Baudyšová M., Spurná V., Nebola M., Vyklický L., Jr., Michl J.: Establishment of mouse neuroblastoma clone E 7 in serum-free medium	155
Bobek P., Chorváthová V.: Effect of pectin on cholesterol distribution in the lipoproteins of streptozotocin-diabetic rats fed cholesterol diet	230
Bohdanecký Z., Lánský P., Radil T.: EEG coherence in frontal and occipital region of the brain	189
Bräunlich H.: Thyroid hormones influencing renal electrolyte excretion in saline loaded rats of different ages	303
Červinková Z., Šimek J., Trojovská V.: Effect of triiodothyronine or etiroxate on DNA synthesis in intact and regenerating liver	501
Deyl Z., Macek K.: Age dependence of the γ -carboxyglutamic acid containing proteins	105
Dibák O., Krajčovičová M., Kopec Z., Grančičová E.: Physiological casein and gluten protein requirements of growing rats	320
Dronik G. V., Škarda J., Urbanová E., Lagodyuk P. Z., Kulackovsky A. R., Jukl A.: The ultrastructure of mammary explants from virgin ovariectomized goats during hormone induced lactogenesis	495
Druga R., Syka J.: Ascending and descending projections to the inferior colliculus in the rat	31
Dušek J., Ošťádal B.: Isoproterenol-induced damage to the liver of chick embryos	67
Greenshaw A. J., Kundu S. N., Bureš J.: Disruptive effects of lateral hypothalamic stimulation on the lick-interrupt cycle in rats	242
Heller J., Kleinová M., Janáček K., Rybová R.: Some characteristics of urea accumulation in the renal cortex tissue of rats and dogs	289
Heller J., Kleinová M., Janáček K., Rybová R.: Effect of a sudden and a slow concentration in some tissues of the dog and rat	296
Hník P., Vejsada R., Kasicki S., Afelt Z.: Stretch-induced inhibition of spontaneous EMG activity in extensor muscles of the rat caused by chronic deaf-ferentation	139
Jakoubek B.: Analgesia induced by painful stimulation and/or anticipation of pain: different mechanisms are operating	171
Ježek K., Pučelik P., Šauer J., Barták F.: Effect of acetylcholine and adrenaline on ventricular action potentials of the human embryonic myocardium	463
Kaye H., Burešová O., Bureš J.: Hippocampal afterdischarge interferes with storage of spatial information in a working test	205
Klír P., Bondy R., Lachout J., Haniš T.: Physiological changes in laboratory rats caused by different housing	111
Kostrouch Z., Mandys V., Felt J., Řehák F., Beaufort J., Holečková E.: Prolonged culture of cells from normal human thyroid tissue and toxic goiters	399
Křivánek J.: Magnesium ions potentiate the formation of adenosine 3',5'-monophosphate induced by depolarizing agents in the rat cerebral cortex <i>in vivo</i>	23
Kujaník S., Wilk P., Tomčová D.: Changes in the vulnerable period of the rat myocardium during hypoxia, hyperventilation and heart failure	470
Kuneš J., Jelínek J.: Influence of age on saline hypertension in subtotal nephrectomized rats	123
Lamošová D.: Changes in the nucleic acid and protein content of the japanese quail during postnatal development	417
Langmeier M., Mareš J.: Changes in some ultrastructural parameters of cortical synapses in the initial phases of kindling	367
Lincová D., Mišeková D., Elisová K., Wenke M.: Effect of oestradiol on catecholamine-stimulated lipolysis	342
Lisý V., Murphy S.: γ -glutamyl transpeptidase activity can be altered by kainic acid and related compounds	17

Litynska A.: Seasonal changes in the circadian activity rhythm of acid phosphatase and -acetylglucosaminidase in the mouse submandibular gland in the presence of LD and DD light regimens	447
Lodin Z., Romanovský A., Fleischmannová V., Hájková B., Hartman J., Faltin J., Šrajter J.: Inhibitory effect of tunicamycin on the adhesivity and aggregation of embryonic brain cells	163
Mareš P., Marešová D., Pohl M., Koryntová H., Seidl J., Velíšek J.: Effect of anticonvulsant drugs on thalamo-cortical and hippocampo-cortical self-sustained after-discharges in the rat	179
Nováková V.: A social environment influence the total RNA content of the brain cells of young laboratory rats	362
Novotný I., Saleh F., Novotná R.: The effect of chlorpromazine and dibucaine on phospholipid metabolism in the frog sartorius muscle	59
Ondriaš K., Horváth Z. I., Balgavý P., Štolc S.: Effects of tertiary amine local anaesthetics on the phase behaviour of the dipalmitoylphosphatidylcholine model membrane. Electron spin resonance tetramethylpiperidinyloxy partition study	489
Ošťádal B., Procházka J., Pelouch V., Urbanová D., Vidimský J.: Comparison of male and female rats to intermittent high altitude hypoxia	
Peregrin J., Valach M., Vit F., Kuba M.: Visual evoked responses to pattern-reversal: the signal-to-noise ratio	353
Pučelík P., Holická M., Lässigová M., Ježek K.: Action potentials of the rabbit, guinea pig, dog and albino rat working ventricular myocardium under interpolated extrasystole conditions during postnatal ontogenesis	49
Raszyk J., Rubeš J., Toulouš M., Urbanová J., Rašová B., Matoušková O., Bursa J.: Biochemical changes in sows after eleven or more farrowings	81
Rektor I.: Influence of parenterally administered amphetamine on the paroxysmal EEG activity in epileptics	43
Rybošová E., Javorský P., Havassy I., Horský K.: Urease activity of adherent bacteria in sheep rumen	411
Rypáček F., Cífková I., Drobník J.: Cisplatin-induced tubular injury studied by water-soluble synthetic polymers	481
Schreiber V.: Prospective hormonal peptides	1
Schreiber V., Příbyl T., Svobodová V., Jahodová J.: Modulation of the effect of oestradiol on adenohipophyseal weight: ineffectiveness of nickel chloride, potentiation by cimetidine	11
Schreiber V., Dušková J., Příbyl T., Svobodová V., Jahodová J.: Metolclopramide potentiates the hypophyseal reactions to oestradiol	385
Seifert J., Machková Z.: Effect of fasting on the metabolism of cytidine nucleotides in the liver of intact and α -hexachlorocyclohexane-treated rats	403
Stříbná J., Dobiášová M.: Lecithin cholesterol acyltransferase activity in chronic nephropathies	224
Svoboda P., Škobisová E., Drahotka Z.: Postnatal development of the beta-adrenergic receptor complex in brown adipose tissue of the rat	97
Šmídová L., Baše J., Koudelová J., Mourek J.: Developmental fatty acid changes in different parts of the rat brain	427
Šmigál P., Greksák M., Černá S., Bođa K.: The isolation and some properties of dairy cow liver mitochondria	336
Šofranková A.: Effect of exogenous and endogenous insulin on the secretory response of the pancreas to the octapeptide of cholecystokinin (CCK8) in normal rats	391
Syrový I.: Effects of temperature on rat and mouse circadian myosin ATPase activity during development	376
Tuček S., Hanzlíková V.: Neuromuscular system of piglets with splayleg: the synthesis of acetylcholine and the myelination and ultrastructure of peripheral nerve fibres	147
Vacek L., Máchová L.: Distribution of microspheres in the brain of hypertensive rats	237
Vaněček J., Illnerová H.: Effect of blinding on the growth of reproductive organs in male rats treated neonatally with testosterone propionate	75

Vlk J., Volín M., Smetanová J.: Dependence of the cytotoxic effects of guanethidine on the degree of sympathetic activity	457
Wagner V., Wagnerová M., Mádlo Z., Zavázal V.: Seasonal changes in the relationship of blood calcium level to immunoglobulins and some of the blood proteins in schoolchildren	437

Short communications

Ahlers I., Ahlersová E., Ďatelinka I., Toropila M.: Effect of food synchronization on the circadian rhythm of bone marrow and thymus lipids in rats	511
Druga R., Syka J.: Neocortical projections to the inferior colliculus in the rat [An experimental study using anterograde degeneration techniques]	251
Křivánek J.: <i>In vitro</i> phosphorylation of proteins in the preparations of cerebral cortex invaded by spreading depression	89
Ošťádalová I., Babický A.: Nutritional dependence of the incidence of selenite-induced cataracts in rats	507
Proceedings of the Czechoslovak Physiological Society, September 7—9, 1983	254
Proceedings of the Czechoslovak Physiological Society, January 31—February 2, 1984	515
